EXPERIENCE

Full Stack Software Developer   Jan 2024 – Present
Tapify (tapify.io)   *Netherlands, EU*
- Developed a complete user-facing web application for businesses to manage and customize user information
- Implemented a cutting-edge tech stack, including Next.js, Tailwind CSS, ShadcnUI, Drizzle ORM, and Vercel for deployment. Integrated Stripe for payments, Resend for email services, and Supabase PostgreSQL for database management
- Utilized advanced tools like TanStack Queries, Server Actions for API handling, Apple and Google Wallets, Supabase Storage, Zod, React Hook Form for validations, Zustand for state management, and Upstash for rate limiting, as well as analytics and speed insights from Vercel.
- Followed best practices for production, focusing on optimization, speed, web vitals, latency, and all essential aspects of a high-level business application
- Currently in production, delivering a seamless experience to thousands of daily users

Full Stack Software Developer   Apr 2024 - May 2024
PDFScribe (Contract)   *India*
- Developed a specialized tool for Meesho sellers to enhance productivity in managing shipping labels
- Implemented features for users to upload Meesho shipping label PDFs, automatically crop out tax invoices, and efficiently sort and group labels by delivery partners, exchange orders, and multi-orders
- AWS S3 for internal PDF file storage

Software Developer   Feb 2024 - Apr 2024
OnShow (Freelancing)   *Israel*
- Developed a pixel-perfect, user-facing UI using Next.js and shadcn.
- Implemented role-based access control and dynamic UI rendering based on user roles
- Built features for publishers to create and manage events efficiently

PROJECTS

LinkNode | *Nextjs, Typescript, ShadcnUI, Tailwind, Vercel, Zod, React Hook Form, React usecontext, etc.*
- Open-source tool that helps you generate one link for all your links
- Database-less architecture using Base64 and URL state for data storage
- URL shortener powered by Dub.co
- Link cloaking and Custom domains support

Artoons | *Nextjs, Honojs, AWS SDK (for R2), Drizzle ORM, Turso Database, Cloudflare Workers, Turborepo, etc.*
- Generate and explore a collection of cartoon-style illustrations
- AI image generation powered by Hugging Face

Threads | *NextJS, Prisma, tRPC, Clerk Auth, Nsfw-filter, Infinite-Scroll, Uploadthing, Next-themes, etc.*
- Meta's Threads Clone built with the t3-stack

Chill-Guy | *Nextjs, Canvas and Fabric.js*
- Figma-style drag-and-drop meme customizer.

Map-Your-Thoughts | *Nextjs, Server Actions, Drizzle ORM, Libsql (turso), Maptiler SDK, Open Street Map, etc.*
- Share your ideas, stories, or anything on your mind anonymously on the map

TECHNICAL SKILLS

Languages \ Frameworks :TypeScript, JavaScript, HTML, CSS, React, Next.js, TailwindCSS, ShadcnUI
Backend \ Databases :Nextjs server actions, Node.js, Express, Honojs, Prisma, Drizzle ORM, tRPC , SQL
Developer Tools \ Libraries: Git, Prettier, ESLint, Biome, TanStack Query, Zod, Zustand, Resend, Stripe
Cloud Services: AWS (S3), Cloudflare (Workers, R2), Vercel, GitHub Actions, CI/CD, Render, Supabase, Turso Database, Neon Database
